Official Order for Correction: Based on an inspection today, the items marked "OUT" indicated violations of 105 CMR 590.000 and applicable sections of the 2013 FDA Food Code. This report, when signed below by a Board of Health member or its agent constitutes an order of the Board of Health. Failure to correct violations cited in this report may result in suspension or revocation of the food establishment permit and cessation of food establishment operations. If you are subject to a notice of suspension, revocation, or non-renewal pursuant to 105 CMR 590.000 you may request a hearing before the board of health in accordance with 105 CMR 590.015(B).

Employee Health

Procedures for Responding to vomiting and diarrheal events

FRAM: FC 2-501.11 Clean-up Vomiting & Diarrheal Events - Establishment -

Pf Did not observe written procedures to respond to vomit and diarrheal events available on site. Ensure a document outlining these procedures is available on site at all times. Code: A food establishment shall have written procedures for employees to follow when responding to vomiting or diarrheal events that involve the discharge of vomitus or fecal matter onto surfaces in the food establishment. The procedures shall address the specific actions employees must take to minimize the spread of contamination and the exposure of employees, consumers, food, and surfaces to vomitus or fecal matter.

Food Identification

Food properly labeled; original container

37 3-302.12 Food Storage Containers Identified/Common Name - Kitchen -

C Observed bucket of salt with no label stating its common name. Ensure that any food product moved from its original packaging to a new container is labeled with the product's common name. Code: Except for containers holding food that can be readily and unmistakably recognized such as dry pasta, working containers holding food or food ingredients that are removed from their original packages for use in the food establishment, such as cooking oils, flour, herbs, potato flakes, salt, spices, and sugar shall be identified with the common name of the food.

Proper Use of Utensils

In-use utensils; properly stored

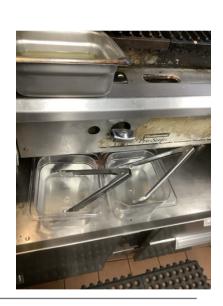

43 3-304.12 In-Use Utensils/Between-Use Storage - Kitchen -

Observed in-use utensil stored on top of rice maker. Ensure that during pauses in food preparation, in-use utensils are either being stored in the food with their handles above the top of the container, on a clean portion of a food prep surface, or in water that is either running or maintained at a minimum of 135 degrees F. Code: During pauses in food preparation or dispensing, food preparation and dispensing utensils shall be stored: in the food with their handles above the top of the food and the container; in food that is not TCS food with their handles above the top of the food within containers or equipment that can be closed, such as bins of sugar, flour, or cinnamon; on a clean portion of the food preparation table or cooking equipment only if the in-use utensil and the food-contact surface of the food preparation table or cooking equipment are cleaned and sanitized every 4 hours; in running water of sufficient velocity to flush particulates to the drain, if used with moist food such as ice cream or mashed potatoes, in a clean, protected location if the utensils, such as ice scoops, are used

43 3-304.12 In-Use Utensils/Between-Use Storage - Kitchen -

Observed in-use utensil stored in water that was 71 degrees F. Ensure that during pauses in food preparation, in-use utensils are either being stored in the food with their handles above the top of the container, on a clean portion of a food prep surface, or in water that is either running or maintained at a minimum of 135 degrees F. Code: During pauses in food preparation or dispensing, food preparation and dispensing utensils shall be stored: in the food with their handles above the top of the food and the container; in food that is not TCS food with their handles above the top of the food within containers or equipment that can be closed, such as bins of sugar, flour, or cinnamon; on a clean portion of the food preparation table or cooking equipment only if the in-use utensil and the food-contact surface of the food preparation table or cooking equipment are cleaned and sanitized every 4 hours; in running water of sufficient velocity to flush particulates to the drain. if used with moist food such as ice cream or mashed potatoes, in a clean, protected location if the utensils, such as ice scoops, are
